APPLIED AI PRODUCT & OPERATING SYSTEMS

Service-to-Product Fold

Use this canvas to decide whether a recurring workflow should remain human-led, receive AI assistance, become agentic, or earn productization.

Workflow & User

Recurring work:

Primary user:

Decision or job:

Current friction:

Outcome Face

Client / business outcome:

Baseline and unit:

Behavior that must change:

Benefit owner:

Trust Face

Data and permissions:

Human authority:

Evaluation standard:

Escalation / rollback:

Reuse Face

Stable core:

Legitimate variants:

Reusable context / behavior:

Production and support owner:

Proof Face

Adoption evidence:

Quality evidence:

Economic evidence:

Client outcome evidence:

Assumptions & Stop Conditions

Critical assumptions:

Fastest test:

Hold condition:

Stop / retire condition:

Disposition

Decision Record

Disposition: Owner: Review date:

Why:

Evidence required before the next investment:

Independent candidate-created working model. It does not represent Acceleration Partners' internal process.
